"DR." SPRATT'S FUNERRL An Old Friend Pays Tribute to His Memory and Worth.

To the Deseret News .- The writer has known the deceased for upwards of 21 years. His spirit was clothed with the dignity of humility. His nature was as guileless as a little child. 'Tis said the first thing that attracted his attention to the doctrines of the Church of Jesus Christ of Latter-day Saints was in the early eighties in England. It was on the occasion of an Elder singing the historical hymn, "O My Father." He afterwards read the production and its significance so impressed him that he was led to accept the Gospel. His father also becomes er also became a convert to the truth. To show the unselfishness of these two men it is recorded that they disposed of their property holdings and with the means emigrated a number of families to Zion. He was a constant attendant at Tabernacle services on Sunday and at other meetings of our people, and faithful in the dicharge of all duties required of him. The doctor was preeminently qualified in handling various forms of diseases through his knowledge. forms of diseases through his knowledge of the curative properties of roots and herbs, which was his special practise. He was small of stature, but pos-sessed of a nobliity of soul typical of a true servant of God. He has gone to his reward. Peace to his ashes.

The funeral services took place yesterday at 4 o'clock at Joseph William Taylor's chapel. The speakers were Patriarch William White, Elders B. H. Schettler, John H. White, John H. Charles J. Thomas and Bishop J. Beatie, all testifying to his generous trai of character,-George M. Crocheron.

WINNING A NEGRITO BRIDE. Amusing "Marriage Run" at the World's Fair Presents Difficulties.

St. Louis .- A "marriage run" is one of the attractions on the program in the Negrito Village in the Philippine section at the world's fair. A bamboo platform seven feet high has been erected, and may be reached by means of a runway which is almost perpendicular, with the sticks of bamboo fustened so close together as to make it almost impossible to get a footbold. possible to get a foothold. Before the wedding ceremony is

formed, the groom must take his bride-to-be in his arms and run to the top of the platform without stopping. If he makes the ascent without slipping, he is considered worthy of the bride. If he falls the ceremony does not take place. The platform has been elaborately decorated with branches and native works of art, and the ceremony takes place on the platform, while the na-tives dance around it, chanting a wedding march as the bridal party descend by means of a ladder.

BE ABOLISHED.

T. E. Swann Will be the Last of The D. & R. G. Assistant General Passenger Agents.

IN THE INTEREST OF ECONOMY.

It is Thought, However, Major Hooper's Son Will Look After Part Of the Work.

From official circulars received in this city this morning from Denver & Rio Grande headquarters it is learned that the office of assistant general passenger agent will be abolished upon the resignation of T. E. Swann Sept. 1. The first announcement of the contemplated retirement of Mr. Swann was made public in the "News" on Saturday night, and at the time there was considerable speculation as to who would succeed the outgoing official. Locally it is now thought that Maj. S. K. Hooper's scn will act as chief clerk for the general passenger department and thereby take over considerable work which heretofore fell to Mr. Swann. It is understood that the cutting out of the office is along the lines of economy instituted at the time the Gould interests took over the road.

MADE TRAVELING ENGINEER. David Hamilton of Evanston Given

Good Position on the O. S. L. David Hamilton of Evanston, one of the oldest and steadiest of the engi-neers on the Union Pacific, has been promoted to the position of traveling engineer for the Oregon Short Line. His headquarters will be in this city and his jurisdiction will extend Salt Lake to Green river and Salt Lake to Butte.

SPOTTERS GET IN WORK. As a Result There Are Some Brakemen Walking the Plank.

As the result of spotters being at work on the Short Line several brakemen are walking the plank for carrying hobos in box cars, and other bad habits. A big percentage of the laborers who travel around the country are addicted to the box car habit, paying the brakemen whatever sum is agreed up-on, thereby cutting into the passenger receipts materially. The brakemen also make a good thing out of the practise and often the fares thus collected amount to double their wages, which are on the basis of \$3.25 per hundred

The brakemen who indulge in this practise are for the major part transi-ent men who are out after as much as they can make ere moving on. Several spotters disguised as tramps have been at work with the result the train department is being trimmed up consi-

U. P. Has Enough Coal.

During the past two weeks representatives of a western syndicate have been in Almy looking over the advisability of opening the C. P. mines. The representatives guaranteed a daily production of 1000 tons if the Union duction of 1,000 tons if the Union Pacific would place the Almy spur in such shape as would allow the trans-portation of coal to the main line. Instead of meeting with the encouragement that they expected, the represen-tatives were informed that the Union Pacific would not expend a cent in plac-ing the roadbed in condition, but that if the parties interested wanted it repaired they would have to stand the ex-pense themselves. This is indeed very encouraging, when it is considered that over 200 men would be given employment if the mines were reopened. Thus the Union Pacific shows up in the light f a "knocker" rather than a "booster." -Evanston News-Register.

Bothe the Rio Grande and Salt Lake Route are running excursions from the south to Provo tomorrow on the occasion of the visit of the Ringling Bros', big shows. CHURCH BUILT OF FRUIT. One of the Old California Missions Re produced at the World's Fair.

St. Louis.-California's agricultural dis play at the World's Fair is so extensive that some of the principal counties have separate exhibits. Santa Clara county has constructed a house of dried fruits modeled after one of the old Spanish Mission Churches, built in the early days when California was a part of Mexico This exhibit is a pavilion of prunes peaches and apricots, with bottles of wine and olive oil and jars of fruits and grapes as window and corner decorations. The

top of Mount Washington. Dried peaches are used as the main covering of the building, with apricots and prunes as ornaments and cornices, and the cross is made of prunes. The base is made of boxes of dried fruits, such as are prepared for commercial exhibits, and the artistic fruit church serves as a sample room, where buyers may see but not purchase California fruits.

Inside is a free school of instruction, where world's fair visitors are taught how to cook and eat prunes. The first consignment to arrive consisted of thirteen tons of dried prunes, which are being served to visitors free of cost. Coffee made of prunes, figs and grain is also served free in this old house, the object being to teach the world the value of California fruits, both as food and drink, George E. Hyde, a prominent California fruit man, is in charge of Santa Clara county's unique exhibit.
